

SPECIAL OPERATIONS VEHICLE (SOV)

+ **Modular design for the ultimate in full-custom flexibility**

+ **Multiple connectivity solutions, including on-the-move satellite**

+ **Interoperable voice, video, and data systems**

+ **Field-tested Hazmat Response and UAS Integration packages**

THE MULTI-SERVICE PLATFORM FOR DYNAMIC MISSIONS

A place for everything and everything in its place. The Nomad Special Operations Vehicle (SOV) is a Swiss Army Knife for your most demanding deployments. With near-limitless configurations, the SOV morphs effortlessly to the shape of your mission. Fire and hazmat response, utility inspection and service, mobile command, drone operations, and more. Urban, rural, or off-grid... The completely customizable SOV is on-call and ready to serve. Choose your ideal mix of storage, workspace, and communications options, and trust that Nomad's unflinching build quality and steadfast 24x7 service will never let you down in the field.

Let's build something great together.

SPECIAL OPERATIONS VEHICLE (SOV)

HAZMAT RESPONSE // SPEED + SAFETY

The Nomad SOV gets to the action faster and keeps mission-critical tools within arm's reach. Save time and energy by analyzing materials on-scene. Transport with complete security. Connect to home agency networks for real-time data processing, even on the move. This is response reimagined.

- + Rock-solid materials analysis and transport
- + Heavy-duty construction for extreme service environments
- + Off-pavement capabilities for challenging deployments
- + Available integrated sensor kit for radiological work

UAS COMMAND // DATA NOW

Tap the aerial perspective for unmatched, edge-computed insights. Achieve situational awareness that saves time, property, and lives. In utility, mining, agriculture, and other industries, gain efficiency and safety improvements that make ROI a no-brainer. Launch, pilot, and process, all from the SOV.

- + Get drones to the work area with a purpose-built vehicle
- + Protect valuable assets with dedicated, heavy-duty storage
- + Process data in real time, minimizing latency and errors
- + Protect airspace with UAS countermeasures

OTHER APPLICATIONS // YOU DREAM IT

When every minute matters, you can't second-guess the grit of your mobile operations assets. For defense, public safety, utility, business, and more, the Nomad SOV is a workhorse... The world's best-built, best-connected tactical support platform. What can you use it for? The only limit is imagination.

Let's build something great together.
