

# FAST-DEPLOY COMMAND VEHICLE

- + Respond quickly, deploy where others can't
- + Multiple connectivity solutions, including on-the-move satellite
- + Interoperable voice, video, and data systems
- + Modular design for the ultimate flexibility
- + Available UAS, Hazmat, and other integrated operational packages

## ADAPTABLE AND CAPABLE FOR DEMANDING MOBILE OPERATIONS

Nomad Fast-Deploy Command Vehicles (FDCV) empower personnel to respond rapidly, travel where more cumbersome vehicles cannot, and deploy with efficiency. These flexible platforms serve a variety of operational needs, including public safety, fire and hazmat, crime scene investigation, unmanned aerial system (UAS) command, and more. Near-limitless interior configurations, power options, and communications suites mean that a solution custom-tailored to your mission is within easy reach. And legendary Nomad service means a reliable, hassle-free service life. Let's build something great together.
